

## **Dr. Mark Flannery Joins inLife LLC's Board as Medical Advisor**

*By inLife LLC*

*Dated: Oct 21, 2010*

*inLife, LLC today announced Dr. Mark Flannery joins inLife's Board as Medical Advisor. Dr. Flannery joins inLife to bring awareness and enlightenment to the public of inLife's new immunological nutritional supplement, inForce Immune Builder.*

Irvine, California- inLife, LLC distributors of science-based Health & Wellness products, today announced Dr. Mark Flannery joins inLife's Board as Medical Advisor. Dr. Flannery, who specializes in the treatment of autoimmune disorders and chronic illness using advanced nutritional therapies is a Diplomate of the College of Clinical Nutrition, a Diplomate of the Chiropractic Board of Clinical Nutrition, and a Certified Nutrition Specialist by the Certification Board for Nutrition Specialists, today joins inLife to bring awareness and enlightenment to the public of inLife's new immunological nutritional supplement, inForce Immune Builder.

Dr. Flannery who assists his patients in achieving their optimal health by focusing on correcting the imbalances in their physiology says, "After much research and analization of inLife inForce Immune Builder's main ingredient Coriolus versicolor, I am very proud to be part of a company that is on the verge of helping many, many people realize their true health potential. In reviewing the research and viewing many of the testimonials so far submitted to inLife I am convinced that inForce Immune Builder should be part of everyone's daily nutritional routine." Dr. Flannery will also soon be seen interviewed by Cristina Ferrare on inLife's soon-to-be-viewed national infomercial about the science behind inForce Immune Builder.

### About Coriolus Versicolor

The Coriolus Versicolor mushroom is one of the most widely studied supplements for its immune building properties. Worldwide, there have been over 400 animal and human studies on Coriolus versicolor with over a dozen placebo-based human trials conducted in the west. Traditionally, the Coriolus versicolor mushroom (known as Yun-zhi or cloud mushroom in China) has been used in China for several thousand years because of its immune boosting capabilities. In the 1980s, Dr. Yang conducted further studies and was able to isolate a much more potent strain using a different, alcohol-based extraction process. The result was Polysaccharopeptide or PSP. In the United States, top-ranked hospital and research institutes have reported that Coriolus versicolor helps boost the body's immune systems with limited side effects and safety of daily oral doses for extended periods of time. In addition, Coriolus versicolor and its potential positive effects has been studied very closely by M.D. Anderson, University of Texas, Loma Linda University, Beth Israel Deaconess Medical Center (a teaching hospital of Harvard Medical School), The University of San Diego, Sloan-Kettering Center (New York), and Bastyr University (Kenmore, Washington) just to name a few.

### inLife Immune Builder with PSP and PSK

inLife offers Coriolus versicolor as a Daily Dietary Supplement in capsule form to help maintain and stimulate the body's immune system. Coriolus versicolor and its high-potency extracts, PSK and PSP are among the most widely studied supplements for their immune building properties. One would be hard-pressed to find another immune boosting product that has had more research completed or positive comments associated with it. The amount of worldwide comments and studies is compelling. InForce Immune Builder is a proprietary blend of both Polysaccharide-K (PSK) and Polysaccharopeptide (PSP). Both offer much needed immune building assistance and they can be taken on a daily basis. The products are bottled in the United States in an FDA registered bottling facility that is CGMP compliant (Current

Good Manufacturing Practices).

About inLife llc

Founded in 2007, inLife has been very successful in bringing to market products that have efficacies that are soundly based on scientific research. inLife products are now available in the U.S. as well as the U.K, Canada and Spain. For more information on inForce Immune Builder and the company, please review [www.myinlife.com](http://www.myinlife.com). For further details on inForce, journalists may contact Thomas Kiklas directly at 949-648-2525.
